Who shall Represent Victoria.

The Governor is going away. A Governor-in-council is to be appointed. Members of the House of Commons are to be elected. But who will be the four members who will be returned to represent the city of Victoria in the local Legislature? This is the question next to who will be sent to the House of Commons, that deserves most attention at the hands of the city electors. The last election in '68; and another in '69, and a semi-election in '70. But there has been no real election based on registered voters in this city since 1865. Literally and legally, we have been six years without a representative Assembly. There has been the form, and last year there was the name, but there has been no substantive power in the hands of the people. Ever since Union the inalienable rights of the people to be represented have been trampled under foot. Six years of continuous agitation have, however, produced a form of government,—purely representative. The miserable obstructive Upper House no longer exists. Nominees of the Executive can no more prevent or throw out the measures that the people's representatives enact. Even the Douglas-Seymour Crown Colony Legislative Council has been abolished. The six-by-nine Council, too, has given up the ghost. Now, for the first time in the history of Vancouver Island and British Columbia, are the people to be entrusted with self-government, pure and simple. They are now to manage their own affairs. The City Councils of New Westminster and Victoria—the only democratic and representative institutions heretofore in the colony—have managed their affairs well and satisfactorily. The new form of Government will only be a municipality on a larger scale. Instead of being confined to a part of our territory and a portion of our people, the new Government,—the head municipality will include the entire colony, territory and inhabitants. Our new constitution is only the application of municipal institutions on a grander scale. The larger, higher, and possibly the more important, certainly the most national subjects of legislation are reserved to the Dominion Parliament. The subjects which are reserved for local legislation are mainly Civil Rights, Education, Charity, Immigration, Roads and Bridges, Public Works, management of the Mines and Crown Lands, the Constitution of our Courts, and a number of minor matters of "a local or private nature." The local Government and Legislature will not be called on to legislate for Trade and Commerce, Postal matters, Customs, Militia, Lighthouses, Navigation and Shipping, Banks, Currency, Indians, Criminal law, Naturalization, Steamship lines, &c. It will then be very readily seen by the electors that we require a class of men,—possibly very different from each other to represent this city in the Commons from what would answer any practicable end in the local legislature. It is found in the House of Commons that it really requires men of considerable reading and a high order of ability to command attention in that body. The ordinary run of members who once served constituences in the Eastern Provinces can do but very little more than vote in the Commons, neither do they attempt it. The electors may, therefore, form a more or less correct notion of the class of men that are require to represent Victoria in the Local Legislature as well as in the Dominion Parliament. It is order, however, to select proper men to represent the city, it has been suggested that a public meeting o the electors be called,—and that a large Committee be appointed to bring forward the names of suitable persons as candidates. It has also been recommended that such a meeting be called at a very early day. The object of calling a public meeting is to prevent any bolt in the corner work and thus prevent a great deal of the trickery that may otherwise be resorted to. Some parties are already going round getting pledges. Now, the far better way is, for the electors to meet in their primary capacity and consult together; make up their minds,—select their candidates and when election day shall arrive to elect them. No greater blunder could be committed by the electors than to neglect their own political duties. Every elector cannot be a member. Only four out of the entire city can represent it in the next Assembly. But every elector may, can, and ought to take his part in selecting proper candidates to be elected. The notion of deferring such a matter till polling day is a mistake. On election day there is but little opportunity to form a correct judgment as to fitness and capacity of a candidate. Neither is there during the few days antecedent, after the writ for election has been issued. At the coming election there should be returned men of sound political principles—sound Liberals. To attain that end, the electors might meet together with advantage and make their own choice. By that means, tricky, scheming politicians, formed in knots or cabals, will be thoroughly discomfited. Let the electors, therefore, consider the suggestion for a public meeting to take preliminary steps to select candidates. Heretofore the electors have been deceived and humbugged. Let them take the matter into their own hands. Let the electors seek the candidates, and let them seek only those whose political antecedents will give a guarantee that they will fulfil their pledges.

Police Court.

Before A. F. Pemberton, Esq., S. M.

FRIDAY, June 23.

Jim, a Fort Rupert Indian, charged with aiding and abetting Cuma and Tommy, Fort Rupert Indians, to escape from gaol, was remanded till Monday next.

Joe, a Fort Rupert Indian, charged with the same offence, was also remanded till next Monday.

San Keun, a China woman, charged with conspiracy to defraud Kwong Lee & Co., was remanded for eight days.

Chang Pong, charged with embezzling sixty dollars belonging to Kwong Lee & Co., his employers, was remanded for eight days.

Richard Berry pleaded guilty to a charge of seducing Peter Worsfold, a seaman belonging to H. M. ship Fawn, to desert from Her Majesty's service, was fined £20, in default, to be imprisoned for three months with hard labor.

THE CANADA BILL.—The Earl of Kimberley, in his place in the House of Lords, on the 23rd ult., moved the second reading of the above bill, the object of which was to render valid some acts of the Canadian Parliament about which some doubt had arisen. Prior to the late Order in Council the Canadian Legislature had passed two acts, making provision for the administration of territory which was to be annexed to them by Order in Council. These were not beyond the powers of the Canadian Parliament, nevertheless considerable doubt had been entertained whether they were valid, and the matter having been brought before both Houses of the Canadian Legislature, they had presented an address to Her Majesty, praying that similar acts should be passed here. The effect of the bill would be that the Canadian Parliament would have power to carve out new provinces which had been annexed to them from territory which was not under administration, and to establish in these new provinces legislatures suitable to those which already existed. The bill was read a second time.—*English Paper.*

CUBAN STORY.—NEW YORK, June 13th.—The *Sun* says: "We learn from unquestionable authority that a proposition of the following nature was made by the British Government to the representative in London of the Cuban Republic: England is willing to guarantee to Spain the sum of one hundred million dollars for the cession of the Island to the Cubans; Cuba to bind herself to become bound to the United States for one hundred years from the date of her independence. The control of the Cuba Custom Houses to be given by Cuba to England, as security for the loan, until, the latter shall be repaid; and lastly, that Cuba shall be willing, if the other West India Islands consent thereto, to form one of a confederacy consisting of all the islands."

OUR COAL.—A San Francisco commercial paper says, with regard to our coal: The schooner Staghound has arrived from British Columbia with another cargo of 150 tons of Anthracite coal, which is now offering in this market. The coal mine is now on sale in this city, and until sold, we need not expect much from that source. In reference to Nanaimo coal, the same paper writes: The Prince Alfred brought 1000 tons of bituminous coal, an article largely used by the Gas Company, and for which full rates are paid.

NOT SO.—We are requested to correct an erroneous impression which prevails, on account of a paragraph which appeared in the STANDARD a few weeks since, viz., that Pandora street church, at present in use by the congregation of Christ Church, has become the property of the Catholic community of this city. This is not the case. Our informant, who is generally acquainted with such matters, was mistaken. An offer, however, had been made for the property.

CHANGED CARGO.—The barkentine Harrison, which was reported to have sprung a leak in the Straits some time since, while on her way from Nanaimo with stone to San Francisco, will have her cargo shifted to the Iconium, which is on the way up to the Sound. The former will then be re-loaded with lumber, and it is said her leak has now become tight.

"GENTLEMAN."—In reference to the education of some English "gentlemen," Mr. Biddulph, a witness in the Tichborne case is reported thus:—"I mean to say as an English gentlemen of old family, that I know many men of good family who would not pass muster, with English gentlemen—some no higher than farmers, and others only fit to be classed with pig-jobbers."

ASHORE.—The schooner Experiment, which recently returned to this port from the North, was driven ashore, on Monday last, on Whidby Island, where she was going to take in hay. Fears were entertained for her safety, but she lies on the beach high and dry, but without leaking any.

PRINCE ARTHUR has narrowly escaped a very serious, if not fatal accident. His Royal Highness recently fell from an unfastened window in Buckingham Palace to the ground, the effect of which rendered him partially insensible; but he has sustained no permanent injuries.

THE UNION WITH CANADA.—An Order in Council, published in the London *Gazette*, notifies that from and after July 20th next, the colony of British Columbia shall be admitted into, and form part of the Dominion of Canada.

FOR PUGET SOUND.—The steamer North Pacific, Capt. Morrison, left for Olympia and way ports yesterday at 12 noon.

At the time of this writing (10 a. m., June 16) the Columbia river is higher at this point by several feet than it has been since 1862, and is still coming up. The settlers along the river bottoms are completely drowned out, and even should it reach its highest point within the next twenty-four hours, the damage to the farmers of this county will aggregate $100,000. We cite a few well known cases as examples: Mr Jacob Prœbstel, jr., (the Nye farm) will lose his entire crop, worth from $2,000 to $3,000. Mr. William Ryan loses a crop worth from $1,500 to $2,000. Mr. Joseph Burke will probably suffer a loss of $1,500. Judge Petrain may escape with the loss of $1,000. Mr. M. R. Hathaway's losses in crop and stock range will probably reach $1,000. Among those whose losses will be considerable are Messrs. D. R. Vales, Wm. Dillon, O. C. Hendrickson, Thos. Beatty, Leander Matthews, John Quigley, and J. F. Smith. With the exception of Messrs. Ryan and Prœbstel, all the above named parties live below Vancouver. Of those above the Washougal who in all likelihood will suffer the most severely are Messrs. C. C. Stiles and Stephen Wright.

THE VANCOUVER COAL CO.—The report of the Vancouver Coal Mining and Land Company (Limited) has been issued for the half-year ending the 31st December, 1870, and shows a balance to the credit of profit and loss of £2,073. The sales of coal have exceeded those of the previous six months by 5,264 tons, but the profit is considerably less than that of the former half-years. Although the amount of £2,314, written off for depreciation and repairs of plant, is less than for some preceding half-year, the usual scale of deduction has been maintained in respect of the principal items to which this charge applies, the difference being accounted for by the diminished output of coal. The directors recommend a dividend of 5s. per share on paid-up shares, and of 3s. per share on ordinary shares, free of income tax.

FARM PRODUCE IN PORT TOWNSEND.—New potatoes can be had at the market at the modest price of eight cents per pound. Cabbages and turnips are plenty. Strawberries have been brought in small quantities. There will be plenty of the latter in a few days. Green peas have not yet made their appearance. From the dairy comes an unusual supply of butter, selling from 30 to 40 cents per pound, retail; cheaper than ever before here, 35 cents for fresh butter was the least ever paid before this summer. Eggs are plentiful at 25 cents per dozen.—*Argus.*

FOR NEW WESTMINSTER.—The steamer Enterprise, Capt. Swanson, left for New Westminster yesterday morning, with about 40 passengers and a considerable amount of freight. Messrs. Geo. Leggatt, J. C. Brown, McAllister, Spencer, and Johnston, the Kootenay expressman, were among the passengers.

TREASURE SHIPMENT.—The following treasure was shipped for San Francisco by the Prince Alfred, per Wells, Fargo & Co.'s Express: Wells, Fargo & Co., $21,198 73; Bank British Columbia, $8,281 26; Bank British North America, $13,982 51. Total, $43,462 50.

FIREMEN'S PICNIC.—At a meeting held last evening, Mr. J. Orr was awarded contract for supplying wines and liquors at the Firemen's picnic on the First of July; Mr. Levy for substantials,—his tender was accepted.

TO BE OPENED.—The new Methodist Episcopal Church at Port Townsend will be opened for service on to-morrow week; services will be conducted by Rev. Mr. Devore and Rev. Mr. Laubach.

A vessel recently foundered off Panama turns out to be the British bark Illinois, bound from Liverpol to Oregon with a cargo of railroad iron. Crew picked up and taken to Falkland Islands.

SAILED.—The bark Zephyr, Capt Trask, sailed on the 12th from San Francisco for this port; brig North Star, Capt. Moorehouse, on the 13th; the Emma Augusta, Capt. Gilman, on same day, for Burrard Inlet.

SERIOUS ACCIDENT.—Our telegrams of this morning tell of a shocking accident which befel some of the hands of the Moses Taylor, while on her late voyage from Honolulu to San Francisco.

DEPARTURE OF THE STEAMERS.—The steamers Oriflamme and Prince Alfred sailed yesterday morning from Esquimalt, for San Francisco—the former at 5 and the latter at 6:30 o'clock.

THE condemned British ship Golden Age, 1,183 tons register, was sold by auction at San Francisco on the 14th, to George Howgate for $3,400. She will probably be broken up.

MISS ANNA DICKENSON, the oratress, intends visiting England this summer. The *Rock* has information that Dr. Dollinger, lately excommunicated by the Pope, will also visit England.

SALE OF LIVE STOCK, &c.—Messrs. Davies & Co., will hold a sale by auction of oxen, horses, buggies, and wagons, to-day, at 12 o'clock noon, at their yard on Fort street.

THE BLACK SEA TREATY.—The ratifications of the Black Sea Treaty, signed by the Great Powers on March 13th, were exchanged on the 15th of May.

FROM SAN FRANCISCO.—The bark Cornelia, 22 days from San Francisco, to load with umber at Burrard Inlet, arrived yesterday in the roadstead.

PROMOTED.—The Queen has ordered that Capt. Richards, formerly on this naval station, be made a Rear Admiral.

FROM PUGET SOUND.—The steamer Isabel, Capt. Clancy, arrived yesterday morning, from Puget Sound.

FOR NANAIMO.—The steamer Isabel left for Nanaimo yesterday morning, for a cargo of coal.

NEW ZEALAND canned salmon and salt cod are a drug in the New Zealand markets.

RIPE STRAWBERRIES are becoming plentiful in market, at 50 cents per lb.

LAST NIGHT'S DESPATCHES.

EUROPE.

PARIS, June 21—Rochefort's trial will commence on Monday next, and that of Rossel and Lullier will immediately follow. The Court Martial before which the cases will come for trial, will sit in the Palais Justice at Versailles.

VERSAILLES, June 21—The speech of Thiers produced an excellent impression in consequence of the clearness of the financial statement, and the announcement that there would be annually set apart two hundred millions as a sinking fund.

It is anticipated that the loan will be a complete success.

It is believed the courts martial will not meet before the election.

PARIS, June 21—The French postal service is restored, while the telegraph is unrestored. Telegrams relative to the loan are accepted by post.

LONDON, June 21—Schenck's credentials were presented on Friday.

LONDON, June 22—Count De Paris goes to Paris on Friday, and then with the Princes D'Aumale and Joinville will visit Chambord.

The *Post* says there is an understanding between Germany, Austria and Russia to preserve the peace of Europe.

PARIS, June 22—The *Debats* proposes the selection of a 2nd Chamber of Councils Generaux, like the late Senate.

The Assembly sits during the election.

Mortality is increasing in consequence of the arrival of emigrants. Cholera and typhus are not prevalent

It is said that Gambetta refuses to acknowledge the mandate of the Assembly, declaring that its functions ceased when the treaty was voted.

MADRID, June 22—In the Cortez the Minister for the Colonies declared that Spain would preserve the integrity of Cuba as long as men were forthcoming. He admitted a Ministerial crisis, but said the Cabinet would resign after approval of the Message.

EASTERN STATES.

WASHINGTON, June 21—General Sherman has returned from his tour throughout the West and Southwest; he contradicts the apprehensions of a wide-spread Indian war on the Texas frontier—in a great measure unfounded. The troops will be fully adequate to prevent raids and outrages.

SIOUX CITY, Iowa, June 21—Advices from the Upper Missouri say the Indians are growing very troublesome in the vicinity of Forts Benthold and Buford. Several attacks were made recently on settlers and others. The engineers of the N. P. R. R. fear trouble in running their line through the upper country. The Indians declare they won't tolerate the construction of a railroad through the country, and are throwing every obstacle in the way of a survey.

CALIFORNIA.

SAN FRANCISCO, June 22—The first regiment of the National Guard, Col. Burnes commanding, is ordered to hold itself in readiness for marching orders, on account of mob demonstrations at Amador and Sutter creeks. The first battalion, supplied with Henry rifles, ammunition, and a full field outfit, leaves this evening for the scene of action. The remainder will follow at an hour's notice, if required. There is a general expression here that the mine-owners must be sustained, and the right of men to labor without fear of personal violence from the mob maintained, whatever be the consequences. The National Guard generally, expects to be in readiness to turn out and do their whole duty whenever called upon.

The Moses Taylor arrived this morning, from Honolulu, five days overdue, with 106 passengers, mostly from New Zealand and Australia, bound East. The detention was caused by the collapse of a flue, while the steamer was [illegible] San Francisco, May 24, by which Nicholas Pendergast and H. Noack, firemen, Paul Nicholas and William Young, coal passers, were instantly killed by scalding; and Thomas Harrison, engineer, and Otten Hans Nielsen, scalded so that they died in a short time. The dead were buried at sea. Several of them left families in San Francisco.

New Zealand.

SAN FRANCISCO, June 22—The steamship Nevada, the first of Webb's line, reached Auckland, New Zealand, May 14, four hours ahead of schedule time. She was greeted on arrival at the wharf by over 2000 persons. Bouquets were given the officers at Auckland and Dunedin.

Mining news from New Zealand is very satisfactory.

The canned salmon and salt codfish shipped from San Francisco to Auckland, was found almost unsaleable, and could only be closed out at heavy loss to shippers.

General Dispatches.

CONCORD, N. H., June 14—Governor Weston was inaugurated to-day, and in his Message he says the receipts of the Treasury for the year were $1,182,325, and expenditures, $1,086,386, of which sum $419,204 was applied to the payment of the State debt. The Governor suggests a more moderate taxation for such payments, and an appropriation for the purpose of the sum equal to the interest on the debt, and $100,000 toward repayment of the principal. The Governor condems special legislation, conseils prudence in the administration of the State and National finances, and on politics, speaks as follows: "It is the occasion of congratulation that the Union is restored, and that the citizens are entitled to protection in the right of the Constitution, and it behooves all to endeavor to cultivate those relations of amity, in which the Union had its origin, and which must be fully restored if we would realize the obvious advantages which the Union was designed to secure. However diverse the interests of the different sections of the country may appear, they are really identical, and the utmost hope of the Union will never be realized until we feel ourselves to be one people, and until we are equally careful of the good name, and equally jealous of the rights of all. Let us cherish with care a steady devotion to the Union, and all these sentiments of fidelity, charity and brotherhood which alone can make the Union blessed."

NASHVILLE, Tenn., June 14—Great excitement is reported in Chattanooga by passengers from that place, occasioned by the seizure of the trains on the Alabama and Chattanooga Railroad, and stopping them by a mob of unpaid employers. The stopping the trains prevents the transportation of supplies to other employers on the line of the road, who are in a state of starvation. Business houses in Chattanooga are closed, fearing the mob. A Stanton, the builder of the road, avers that he is not to blame for this state of affairs, that if let alone he can pay out. The Chinese employes demand to be sent back to California, and are willing to abandon their claims.

VERSAILLES, June 14—The Orleans Princes were at Thiers' dinner. They visited Thiers unexpectedly. The latter said that although he was once the minister of their father he was to-day the head of the Republic. There is nothing significant in the Princes' visit, they understood the past and accept the present. Thiers did himself honor. The Republicans were unembarrassed in the presence of the illustrious Princes.

LONDON, June 14—The Danish Anna Smith has been wrecked on the British coast, and ten lives lost.

BERLIN, June 14—The Donation Bill Committee has met and examined the bill which was adopted with amendments. The Empire draws, and obliged England to submit to principles hitherto unknown to the country. The Lord Chancellor sustained the treaty, while the Marquis of Salisbury declared the treaty sacrificed the rights of neutrals. America is disappointed.

The Duke of Argyle said England gained an acknowledgment of certain great rules in international law, without making any sacrifice.

Earl Russel then withdrew his motion, and the debate was brought to a close.

The Memory presides over the past. Fell's Coffee over the present. The first, true, is a rich temple hung with glorious trophies, and lined with tombs, but Fell's Coffee has but one shrine and one to every breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealer in British Columbia. Beware of spurious imitations. 1y *

DR. CHING FUN.—A CARD.—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, next door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skull of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit and test him. Respectfully,

JOHN HENTON, of Kentucky, U. S.

THE STANDARD LIFE ASSURANCE COMPANY,

ESTABLISHED 1825.

Constituted by Special Acts of Parliament.

ANNUAL REPORT 1871.

THE FORTY-FIFTH ANNUAL GENERAL MEETING OF THE STANDARD LIFE ASSURANCE COMPANY was held at Edinburgh, on Thursday the 20th April, 1871—

H. MAXWELL INGLIS, ESQ., F. C. S. in the Chair.

The Manager submitted to the meeting the ANNUAL REPORT by the Directors as to the Progress of the Business.

The Report submitted—

The ANNUAL REPORT on the Books and Accounts by the Auditor of the Company, certifying that he had found the whole accounts accurately stated and properly vouched.

The Balance Sheet of the Company's Affairs, exhibited by the Auditor and three of the Directors, in accordance with the Acts of Parliament constituting the company.

A GENERAL AND COMPARATIVE STATEMENT explanatory of the Progress of the Business from 1825 to 1870.

The following Results were communicated in the Report:—

ANNUAL PREMIUMS FOR ASSURANCES during the year 1870 (3,383 proposals)	£1,498,686 3 10
AMOUNT OF ASSURANCES ACCEPTED during the year 1870 (1,936 Policies)	£1,181,899 3 10
ANNUAL PREMIUMS on New Policies	£42,725 14 8
CLAIMS BY DEATH during the year, exclusive of Bonus Additions	£333,666 16 4
THE SUMS INSURED ASSURANCES at 15th November, 1870, amounted to (Of which £970,369 1s. was re-assured with other offices)	£16,491,088 12 2
THE ACCUMULATED FUNDS amounted to upwards of	£4,000,000 0 0
THE ANNUAL REVENUE was upwards of	£700,000 0 0

THE CHAIRMAN requested particular attention to the Report submitted by the Directors, which was then read and from which the following is an extract;

"On the present occasion the Board of Directors have not only to give an account of their proceedings during the first financial year of the Company's progress, but during the quinquennial period which closed on the 15th November, 1870.

"The Directors have now much satisfaction in reporting that each year of the quinquennial period has been attended by that steady and satisfactory progress which has for so long a period marked the operations of the Company. They did indeed at one time, contemplate that their advancement might be checked; First, by the monetary disturbances in 1866, and latterly, by the financial difficulties of various English Assurance Offices, which had given rise to distrust and doubt; but it will be observed from the following table, showing the business transacted during the five years that the Company has pursued the calm and even tenor of its way, without being in any degree affected by these disturbing elements.

NEW ASSURANCES EFFECTED from 15th November, 1865 to 15th November, 1870:—

"To 15th November, 1866	£1,190,251 11 2
" " 1867	1,127,520 10 0
" " 1868	1,104,264 19 6
" " 1869	1,110,347 2 9
" " 1870	1,181,399 3 10
Total in Five Years	£5,713,813 7 3

Giving an annual average of new business during the period of £1,142,762 15s. 5d. the first and last years of the period being above the average.

"While the Directors direct attention to these results, as indicative of the industry with which the business has been pursued, they would also claim credit for the exercise of a sound discretion in the selection of lives, the proposals made to the company during the period referred to, and from which these assurances were selected, amounting to no less than £7,151,170 16s. 5d. contained in 11,221 proposals, of which 9,190 were accepted, represented by the total of £5,713,813 7s. 3d. shown above.

"The company has thus, it must be admitted, been eminently successful in obtaining new business, evincing the esteem in which it is held by the public; but a Report of this nature would be very incomplete were prominence not given to the Exits as well as the entrances. Death has claimed its usual percentage of the living and the company has fulfilled the object of its institution by meeting with promptness the claims which were thus made upon its funds.

"The Deaths during the quinquennial period gave rise to the following claims:—

	Claims.	Sums Assured.		Bonus Additions.	
1866		£314,376	3 10	£48,693	4 8
1867		306,561	13 6	46,190	13 0
1868		313,070	15 6	46,899	17 1
1869		322,117	11 8	36,649	10 10
1870		333,605	16 4	42,343	16 1
		£1,591,732	0 10	£220,476	1 8

"In transacting all this business, the Directors have to the best of their ability, discharged the responsible duties devolved on them. It can well be imagined that in the acquisition of so much new business, in the dealings with so many accumulated transactions and in the settlement of such a large amount of claims, questions of importance requiring the exercise of care, judgment, discretion and liberality, have presented themselves and probably the best gauge of the success which has attended the management in these respects is that so little had been heard of the Company as it pursued its way. The Directors may at any other time refer to the advanced position which this Company has always taken up in liberalising the conditions of the Assurance Contract which has greatly facilitated all these proceedings, but at present they will confine themselves to the simple duty of reporting progress.

"The Directors have only further on this occasion to refer to the Investigation with reference to the Eighth Division of Profits now in progress. They are happy to state that the laborious calculations necessary to ascertain the Company's position have very nearly been completed, but the results have not been placed before them by the Actuary, so that they can make no statement on the subject, but they are glad to have it in their power to state that a few weeks hence the whole will be reported in the most complete manner. These remarks apply to the actuarial results which show the liabilities of the Company. The investigation of the other side of the account, namely: the Assets, has already been completed and a most satisfactory Report made by a Committee of Directors who have examined each security and each document constituting it.

The Chairman then addressed the meeting in congratulatory terms on the position of the Company.

The Report was unanimously approved of; and after the election of new Directors and a vote of thanks to the Office-Bearers, the meeting separated.

Extract from the Report of the Special Committee ON

MARTINI-HENRY BREECH-LOADING RIFLE.

Presented to Both Houses of Parliament by Command of Her Majesty.

[C. 299, page 4.]

GUNPOWDER.

"The powder first tried by the Committee in the Boxer-Henry cartridge, and of which they entirely approve, is known as 'Curtis and Harvey, No. 6.' Several other descriptions manufactured at the Government Factory, Waltham Abbey, have also been tried, but have not afforded the same uniform accuracy of shooting.

There appear to be difficulties, confined, it is believed, to the question of expense, in producing a powder at Waltham Abbey, in all respects equal to 'Curtis and Harvey, No. 6;' but the Committee, keeping in view the importance of maintaining the great accuracy of shooting of the Martini-Henry rifle, recommend that no powder should be used for its ammunition that does not give results at least equal to those obtained in the Committee's experiments, whether such powder be obtained from the Government Factory or from the trade."*

* Messrs. Curtis and Harvey's powder was employed by Mr. Henry during the competition for accuracy of shooting and as the results then attained were satisfactory, the Committee have, without making trial of the powder of other manufacturers, continued its use as a standard.

CURTIS'S & HARVEY take this opportunity of sending an Extract from the Report of the Special Committee on the most suitable Rifles for the Service; and as THEIR GUNPOWDER is so highly commended, they think it desirable to communicate the information to their Customers and Friends. The recommendation equally applies to all other marks and descriptions.
